

Case Study Instructions – Read this before watching the video

The FHLB Dallas Community Investment team designed a case study to further educate and assist you with completing your next AHP application. The case study includes two real project descriptions that you can work through on your own to score the project and identify what documentation is needed for a successful AHP application.

After you watch the AHP webinar, please follow the instructions below to begin the case study.

- **Case Study Presentation** – The video recording provides instructions for the case study along with the answers. Please watch the first few minutes of the video for instructions on how to complete the case study worksheet.
- **Case Study Worksheet** – Once you've completed the worksheet, please watch the remainder of the case study video to get the answers and a quick debrief of the projects featured.
 - [Click here to download the case study worksheet](#)
- **Attachment D** – This document is an excerpt from the AHP Implementation Plan. It provides an in-depth description of each of the scoring components and will be useful in completing the case study worksheet along with self-scoring your own projects.
